

ENVIRONMENTAL POLICY

Restore Technology PLC (Previously Spinnaker Waste Management Ltd) operates in South Central England and London; carrying out WEEE and E-Waste Recycling, the collection and disposal of all redundant IT, electrical and office computer equipment and Hard Drive Data Wiping.

It is the policy of the company to operate an Environmental Management System based on the requirements of ISO14001:2015 as part of their Integrated Management System.

The company is committed to:

- The protection of the environment through preventing pollution created from company activities associated with the collection of customer goods and disposal of WEEE, as well as test, storage and equipment destruction processed at the company premises. The company aims to re-use and refurbish customer IT equipment where possible, with recycling and/or disposal conducted where necessary.
- Fulfilling and complying with our identified compliance obligations
- Identifying and managing our environmental aspects to reduce our impacts
- Setting and reviewing environmental objectives through our Management Review process.
- Continual improvement of our Environmental Management System to enhance our environmental performance.

This policy will be communicated to all employees and anyone working for or on our behalf, and are expected to co-operate and assist on the implementation of this policy, whilst ensuring that their own work, so far as is reasonably practicable, is carried out without risk to themselves, others or the environment.

This policy will be reviewed annually by the Operations manager to ensure it reflects the aims and objectives of the company.

Signed: Hannah Mills
Position: Operations Manager
Date: April 2019.
